

**Honor's Biology Vocabulary List for
Evolution
Chapter 15,16 and 17**

1. adaptation	
2. analogous structure	
3. artificial selection	
4. biogeography	
5. convergent evolution	
6. evolution	
7. fossil	
8. gene pool	
9. half-life	
10. homologous structure	
12. natural selection	
13. phylogenetic tree	
14. radioactive decay	
15. radioisotope	
17. vestigial organ	

18. adaptive radiation	
19. extinction	
20. gradualism	
21. macroevolution	
23. punctuated equilibrium	
24. reproductive isolation	
25. speciation	
26. species
