

Honors Biology
Lab: Building Organic Molecules

Instructions: For each of the indicated molecules below complete the following using your pinwheel as a reference tool.

- a. using the “tinker toys” construct each organic compound or functional group**
- b. after constructing the model draw the structural formula in provide cell using the color format of your pinwheel and model set**

Hydroxyl Radical	Amine Radical
Carboxyl Radical	Methane
Propane	Ethanol
Ethyl Amine	Propyl Amine
Ethanoic Acid	Propanoic Acid
Propanol	Methyl Amine
